VENNU UJWAL

ASPIRING SOFTWARE ENGINEER | FULL-STACK DEVELOPMENT

GRIET · Undergraduate Student · Hyderabad, India
Email: vennuujwalkumar@gmail.com
Portfolio: vennu-ujwal-kumar.vercel.app

PROFESSIONAL SUMMARY

Undergraduate student at GRIET building a foundation in software engineering and full-stack development. Interested in creating useful web applications and exploring artificial intelligence, machine learning, backend engineering, and software architecture. Brings a project-first mindset, curiosity, and a commitment to learning through practical implementation.

TECHNICAL SKILLS

Frontend	React, JavaScript, HTML, CSS, Next.js
Backend & APIs	Node.js, REST APIs; exploring Spring Boot
Programming	Java, JavaScript
Databases	SQL (currently exploring)
Tools	Git, GitHub, Visual Studio Code, Vercel
Areas of Interest	Full-stack development, AI/ML, software architecture, system design

PROJECT EXPERIENCE

TaskFlow | Productivity Web Application
Live demo: task-flow-sage-tau.vercel.app

- Built a web-based productivity platform designed to help users organize tasks, manage workflows, and support day-to-day efficiency.
- Worked with JavaScript, HTML5, and CSS3 to implement the user interface and core front-end experience.
- Deployed the project on Vercel; presented as a featured project in the personal portfolio.

EDUCATION

Gokaraju Rangaraju Institute of Engineering and Technology (GRIET)
Undergraduate Studies | Sophomore (second year) | Hyderabad, India

- Academic focus: computer science fundamentals, programming, and software development.

EXPERIENCE & PROFESSIONAL DEVELOPMENT

Independent Developer | Personal Projects

- Builds and iterates on personal software projects to strengthen practical development skills and turn ideas into working applications.
- Continuously develops knowledge across frontend development, backend APIs, Java, and emerging AI technologies.
